SOFTWARE DEVELOPMENT | DATA ANALYTICS

Tempe, AZ | 310.738.1687 | leslie.guzman.y7e7@statefarm.com

Objective

Professional with seven years of experience at State Farm and a degree in Graphic Information Technology with a concentration in Full Stack Web Development, seeking opportunities in software development or data analytics to apply technical, analytical, and problem-solving skills.

Experience

State Farm | Customer Care Specialist II **November 2023 - Present**

- Delivered customer support by addressing inquiries, researching account concerns, and providing accurate solutions.
- Explained insurance products, services, and processes while maintaining professionalism and customer satisfaction.
- Documented customer interactions, updated records, and navigated multiple computer systems to resolve issues efficiently.
- Applied critical thinking and problem-solving skills to handle complex customer situations and identify appropriate next steps.
- Collaborated with internal departments to resolve customer concerns and support business operations

State Farm | Retention I (Spanish – In Language) **March 2019 – November 2023**

- Assisted Spanish-speaking customers with insurance policy questions, concerns, and retention requests.
- Used problem-solving and negotiation skills to resolve customer issues and support policy retention.
- Documented customer interactions and maintained accurate records using internal computer systems.
- Delivered professional, bilingual customer service while maintaining confidentiality and adhering to company procedures.

Golds Gym Downtown Los Angeles **July 2017 – January 2019**

- Oversaw daily front desk operations to ensure a welcoming, organized, and professional member experience.
- Supervised and supported front desk staff, including coordinating schedules, training employees, and monitoring performance.
- Assisted members with account inquiries, membership changes, billing questions, and service concerns.
- Managed membership records, processed transactions, and maintained accurate information using gym management systems.

Education

Bachelor of Science in Graphic Information Technology **October 2025**
Concentration: Full Stack Web Development
Arizona State University | Tempe, Arizona

Hollywood Highschool | High School Diploma **June 2011**
